Description

Designing and implementing a communication, blog, and booking interface for our client. This website will streamline our clients booking process by creating an intuitive sales funnel.

Features

- Client sign-up and login
- Search blog posts made by site owner
- User submitted contact form

Planning - User Stories

Users(clients) can initially sign in to create an account.

Once their account is created, they can log in and if authenticated, they will be rerouted to their personal Client Dashboard.

Clients can also search and view blog posts made by the Owner.

Users can contact admin with a personalized message.
